Re: Monthly Report on District Operations

I am currently assigned to the Anthony fire on the Walla Whitman National Forest between LaGrande and Baker City, OR. Should be returning about July 20th.

- The District was dispatched to 10 calls since last meeting and was unable to respond to only 1 of those calls.
- Medical – 3, 1 non-response
- Vehicle Fire – 1
- Vegetation Fire – 1
- Vehicle Accident – 1
- Electrical Problem – 1
- Open Burn – 1
- Public Assist – 1
- False Call, (Battery candles mistaken for warming fire) – 1

On June 30th, Firefighter Carlton responded to a reported wildland fire MP74 S/B, arrived to find four roadside fires, he was able to stop the spread of two of the fires prior to the arrival of other units. Great job Brian!

We are continuing to clean up station two, next project on the list is getting the Connex box moved to station 1, which involves inventorying, sorting, cleaning out of the box and then preparation and moving it.

Weed abatement at both station has been completed.
